**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3-27 are rejected under 35 U.S.C. 102(e) as being anticipated by Chess et al. '211. In column 3 lines 37-50 Chess et al. disclose a method of heating a target surrounded by surrounding tissue, comprising heating at least the surround tissue to a first temperature and selectively heating the target to a second temperature higher than the first temperature. **Regarding claims 8, 10, 11, 14, 15, 19, 20** see col. 3 lines 64-66. **Regarding claims 23 and 24** see col. 1 lines 18-27.

***Conclusion***
